THE FATHER'S BLUEPRINT

*Four disciplines and one habit that quietly build a
man's whole life.*

Father

One page to live by.

The Blueprint

TIME — You will never have less time than today. Stop selling every present hour for a future no one promised. Spend your days on your life, not on escapes from it.

DISCIPLINE — You will not rise to your hopes; you fall to your habits. Do the hard thing first, while the will is fresh. What you tolerate today, you cannot escape tomorrow.

WEALTH — Real wealth is quiet. It is the freedom to answer to no one, not the number others can see. Want less, and you are already richer than most.

CHARACTER — Who you are alone, unwatched, is the real you. Guard your name; it walks into the room before you and lingers after you leave.

SILENCE — A man needs quiet the way a field needs winter. Withdraw from the noise each day, and you will finally hear what matters.

Print this. Keep it where you will see it each morning.

Master these five, and the rest of life falls into order behind them.
